

## Are you interested in Carbon Farming through Qld Land Restoration Fund program?

- Learn what steps to take to start your own Carbon Farming Project
- Hear some basics about Carbon, Carbon Farming and the benefits of Carbon Farming
- Talk to others also considering starting a Carbon Farming Project with the Land Restoration Fund

Queensland Farmers' Federation has partnered with the Queensland Government to deliver a series of workshops across Queensland to help landholders apply for the Queensland Government's Land Restoration Fund (the Fund). The 2020 Investment Round of the Fund will invest \$100 million in projects that deliver carbon farming with co-benefits.

**From 8:30-3:00 pm**

At the workshops, specialists from government, industry and the carbon farming sector (QRIDA, Carbon Market Institute, your industry representatives, your local NRM staff and Carbon Project Developers) will explain the application process and provide information on the first investment round so attendees can start putting together applications for carbon farming projects in Queensland.

Guest speakers and presenters will be available to speak one-on-one to attendees after each workshop.

Workshops are set to be held in regional locations on these dates:

### About the Land Restoration Fund

The fund:

- aims to expand carbon farming in the state by supporting land-sector projects that deliver additional environmental, social and economic co-benefits.
- empower farmers, land managers and landholders with the support needed to generate additional, regular and diverse income streams and protect their business in tough times, through carbon farming projects

**Keep in touch with your local grower or producer group for further information.**
